Dear [REDACTED]

Provision of requested information

Thank you for your request for information about the potential development of pipelines to transfer waste water, which we received on 17 December 2024. Your request has been considered under the Environmental Information Regulations 2004.

Please find attached a list growth schemes from final determination which have solutions entered as pump away or transfer between catchments. These will be transferring of wastewater to an existing WRC and will be treated and then discharged at a current discharge point- not a new one.

These plans may change once they go into design and any new discharge points would need to be agreed with the Environment Agency. These solutions are not final and are subject to change over the AMP during the design phase.

As these schemes are still in planning stage the estimated costs have not been worked out yet.
